

VILLAGE OF THIENSVILLE
JOINT REVIEW BOARD
TAX INCREMENTAL DISTRICT NO. 2 CREATION
AGENDA

DATE: Monday, October 12, 2020

TIME: 1:00 PM

LOCATION: 250 Elm Street, Thiensville, WI
and via Zoom

The meeting will be held at the Thiensville Village Hall located at 250 Elm Street, Thiensville, as well as by Zoom, an online meeting tool. Contact the Village Administrator, Colleen Landisch-Hansen, at least 2 hours in advance of the meeting if you wish to attend via Zoom by emailing her at clandisch@village.thiensville.wi.us.

Provide your name, address, email and phone number with your request to join the meeting.

III. BUSINESS

A. Consideration and Appointment of the Joint Review Board's Citizen Member

1. John Treffert, 184 Riveredge Court

MOTION by Member Holyoke, **SECONDED** by Administrator Landisch-Hansen to appoint John Treffert, 184 Riveredge Court, as Thiensville Joint Review Board Citizen Member. **MOTION CARRIED UNANIMOUSLY.**

B. Election of Chairperson

MOTION by Administrator Landisch-Hansen, **SECONDED** by Member Treffert for the Election of Rob Holyoke as Chairperson for the Joint Review Board. **MOTION CARRIED UNANIMOUSLY.**

C. Discuss Responsibilities of the Joint Review Board

Mr. Brian Roemer of Ehlers described the responsibilities of the Joint Review Board.

Member Treffert inquired as to the role of Joint Review Board i.e. being proactive working for the success of the TIF or purely as an oversight board. Mr. Roemer indicated that the role of the Joint Review Board is both of those. The overlying taxing jurisdictions that are forfeiting their increment revenues would certainly hope to be voting for things that benefit the area. They want the TID to be successful. Regarding acting as an oversight, the Joint Review Board is an oversight board voting yes or no regarding creation of the District and then at closure making sure funds are handled appropriately. Oversight happens on an annual basis. More or less the success part happens at the first creation while understanding the goals of the District and, ultimately, where the proposed revenues would be used. The Village Board will be making the decision on how to appropriate the funds addressing the projects in the Project Plan. This Plan can be amended up to four times during the life of the TID.

D. Discuss and Review Project Plan

Mr. Roemer presented the Project Plan for the Creation of Tax Incremental District No. 2 dated August 25, 2020.

The District map, found on page 6 of the Project Plan, includes 17 parcels starting from east on Green Bay Road extending along Freistadt Road to Williamsburg Drive. Member Holyoke noted inconsistencies comparing the Preliminary Parcel List and Analysis to the map regarding the parcel reference numbers. This will be corrected. The map correctly identifies the parcels that are included in the District.

The District includes a known development as well as additional development in the surrounding area. Right now the Village has before them development for lot 5 (indicated on the map) which is a mixed multi-family and retail development. With that, there are certain project costs associated with that lot that the Village would like the increment revenues to support.

A proforma analysis was conducted to look at how much the Developer can afford as well as any assistance that the Developer is looking for in order to complete the project. The Developer is looking to get a certain rate of return on the project that is comparable to other projects in the same market and are looking at an additional incentives. Projects of this type typically need to provide a return in the range of 12% to 15% to attract the necessary investment capital. The Developer has requested that the Village provide incentive payments on a pay as you go basis with an estimated present value of \$2.0 million. Projected future value payments are \$3.28 million. Provisions of the requested assistance would improve the Project's return on investment to 11.7%.

A pay as you go basis eliminates the risk to the Village by asking the Developer to essentially wait for these payments instead of getting \$2.0 million upfront from the Village. The Developer will borrow from a third party lender to get this money. If the project performs and gets the increment value to a certain level, the Village provides these benefits back in the form of cash incentives; 60% of the increment revenue each year would go back to the Developer up to \$3.28 million over the life of the District.

This District is being created as a blight district which allows for 27 years of recouping increment revenues. The District right now is projected to close within 25 of those allowable 27 years.

A Developer's Agreement will be forthcoming from the Village. In addition to that, there are certain infrastructure improvements in the District that the Village will be looking to complete i.e. water main work, street lights, streetscaping and burying of overhead utilities. This is all shown to be completed around 2023. The Village wishes to use this increment to pay for those project costs and also to redevelop the area. Certain property acquisitions are being considered as well.

As the cash flow shows, the main mixed-use development will take on the majority of these project costs. Other areas of development have been identified ultimately getting to the \$36 million of increment value – this creates about \$16.4 million in increment revenues.

Outside of the incentive payment, in order to take on the additional project costs, there is a financing plan in place. It is reasonable to expect that market conditions change and certain other financing vehicles may be necessary at the time of issuance to take on these projects so it stands to reason that state programs may be more attractive at that time, however, at this point a plan has been put together with G.O. Bonds and State Trust Fund Loans.

The costs associated with Ehlers is also paid for from the District on an annual basis.

The Walgreens site is the primary source of this proposed District with hopefully other areas being improved. Administrator Landisch-Hansen shared that this site has already gone through the process of getting a land use amendment and has been rezoned.

E. Set Next Meeting Date

The next meeting is scheduled for Monday, October 12, 2020 at 1:00 PM.

IV. ADJOURNMENT

MOTION by Member Viera, **SECONDED** by Member Bonaparte to adjourn the meeting at 4:55 PM. **MOTION CARRIED UNANIMOUSLY.**

Submitted by,

Amy L. Langlois
Village Clerk

Approved by,

Colleen Landisch-Hansen
Administrator

**RESOLUTION DESIGNATING PROPOSED BOUNDARIES
AND APPROVING A PROJECT PLAN
FOR TAX INCREMENTAL DISTRICT NO. 2,
VILLAGE OF THIENSVILLE, WISCONSIN**

WHEREAS, the Village of Thiensville (the "Village") has determined that use of Tax Incremental Financing is required to promote development and redevelopment within the Village; and

WHEREAS, Tax Incremental District No. 2 (the "District") is proposed to be created by the Village as a blighted area district in accordance with the provisions of Wisconsin Statutes Section 66.1105 (the "Tax Increment Law"); and

WHEREAS, a Project Plan for the District has been prepared that includes:

- a. A statement listing of the kind, number and location of all proposed public works or improvements within the District, or to the extent provided in Wisconsin Statutes Sections 66.1105(2)(f)1.k. and 66.1105(2)(f)1.n., outside of the District;
- b. An economic feasibility study;
- c. A detailed list of estimated project costs;
- d. A description of the methods of financing all estimated project costs and the time when the related costs or monetary obligations are to be incurred;
- e. A map showing existing uses and conditions of real property in the District;
- f. A map showing proposed improvements and uses in the District;
- g. Proposed changes of zoning ordinances, master plan, map, building codes and Village ordinances;
- h. A list of estimated non-project costs;
- i. A statement of the proposed plan for relocation of any persons to be displaced;
- j. A statement indicating how the District promotes the orderly development of the Village;
- k. An opinion of the Village Attorney or of an attorney retained by the Village advising that the plan is complete and complies with Wisconsin Statutes Section 66.1105(4)(f).

WHEREAS, prior to its publication, a copy of the notice of public hearing was sent to owners of all property in the proposed District, to the chief executive officers of Ozaukee County, the Mequon-Thiensville School District, and the Milwaukee Area Technical College District, and any other entities having the power to levy taxes on property located within the District, in accordance with the procedures specified in the Tax Increment Law; and

WHEREAS, in accordance with the procedures specified in the Tax Increment Law, the Planning Commission, on September 1, 2020 held a public hearing concerning the project plan and boundaries and proposed creation of the District, providing interested parties a reasonable opportunity to express their views thereon.

NOW, THEREFORE, BE IT RESOLVED by the Planning Commission of the Village of Thiensville that:

1. It recommends to the Village Board that Tax Incremental District No. 2 be created with boundaries as designated in Exhibit A of this Resolution.
2. It approves and adopts the Project Plan for the District, attached as Exhibit B, and recommends its approval to the Village Board.
3. Creation of the District promotes orderly development in the Village.

Adopted this 1st day of September, 2020.

SECTION 1:

Executive Summary

Description of District

Tax Incremental District (“TID”) No. 2 (“District”) is a proposed Blighted Area District comprising approximately 15 acres located primarily at the intersection of East Friestadt Road and North Main Street. The District will be created to pay the costs of land acquisition/remediation, infrastructure, and developer incentives (“Project”) needed to be developed by NexJenn Real Estate LLC (“Developer”). In addition to the incremental property value that will be created, the Village expects the Project will result in additional retailers, additional multifamily, and area redevelopment.

Authority

The Village is creating the District under the provisions of Wis. Stat. § 66.1105.

Estimated Total Project Cost Expenditures

The Village anticipates making total expenditures of approximately \$9.9 Million (“Project Costs”) to undertake the projects listed in this Project Plan (“Plan”). Project Costs includes Property Acquisition for Development, Environmental Audits and Remediation, Demolition, Utility System improvements, Street Improvements, Cash Grants (Development Incentives), Professional Service and Organizational Costs, Administrative Costs, and Financing Costs. These project costs and details are further explained in Sections 6 and 7.

Incremental Valuation

The Village projects that new land and improvements value of approximately \$20 million will result from the Project. Over and above the Project the Village hopes to redevelop the surrounding area and create around \$15 million of value above existing value. Creation of this additional value will be made possible by the Project Costs made within the District. A table detailing assumption’s as to the development timing and associated values is included in the Economic Feasibility Study located within this Plan.

Expected Termination of District

Based on the Economic Feasibility Study located within Section 9 of this Plan, the Village anticipates that the District will generate sufficient tax increment to pay all Project Costs within 25 of its allowable 27 years.

Summary of Findings

As required by Wis. Stat. § 66.1105, and as documented in this Plan and the exhibits contained and referenced herein, the following findings are made:

- ✓ That “but for” the creation of this District, the development projected to occur as detailed in this Plan: 1) would not occur; or 2) would not occur in the manner, at the values, or within the timeframe desired by the Village. In reaching this determination, the Village has considered:
 - A review of the Project’s sources and uses, and cash flow proforma. The Project’s projected return on investment over 10 years without TIF assistance is 6.7%. The Developer has requested that the Village provide incentive payments on a pay as you go basis with an estimated present value of \$2.0 million. (Projected future value payments of \$3.28 million). Provision of the requested assistance would improve the Project’s return on investment to 11.7%. Projects of this type typically need to provide a return in the range of 12% to 15% to attract the necessary investment capital. Based on Ehlers review, provision of pay as you go incentives in the amount requested is necessary to provide an acceptable return on investment and indicates that “but for” the incentives, the project would not likely proceed. The amount to be allocated for incentive payments is still under consideration by the Village Board and final amount will be determined by a Developer’s agreement as required by state statute.
 - The substantial investment needed to provide the public infrastructure necessary to allow for development within the District. Absent the use of tax incremental financing, the Village is unable to fully fund this program of infrastructure improvements.
- ✓ The economic benefits of the District, as measured by increased employment, business and personal income, and property value, are sufficient to compensate for the cost of the improvements. In making this determination, the Village has considered the following information:
 - That the Developer is likely to purchase goods and services from local suppliers in construction of the Project, and induced effects of employee households spending locally for goods and services from retailers, restaurants and service companies.
- ✓ The benefits of the proposal outweigh the anticipated tax increments to be paid by the owners of property in the overlying taxing jurisdictions. As required by Wis. Stat. § 66.1105(4)(i)4., a calculation of the share of projected tax increments estimated to be paid by the owners of property in the overlying taxing jurisdictions has been prepared and can be found in this Plan. However, because the Project would not occur without the use of tax incremental financing, these tax increments would not be paid but for

creation of the District. Accordingly, the Village finds that the benefits expected to be realized as set forth in this Plan outweigh the value of the tax increments to be invested in the Project.

- ✓ Not less than 50% by area of the real property within the District is a blighted area as defined by Wis. Stat. § 66.1105(2)(ae)1.
- ✓ Based on the foregoing finding, the District is designated as a blighted area district.
- ✓ The Project Costs relate directly to the elimination of blight in the District, consistent with the purpose for which the District is created.
- ✓ Improvements to be made in the District are likely to significantly enhance the value of substantially all of the other real property in the District.
- ✓ The equalized value of taxable property in the District, plus the incremental value of all existing tax incremental districts within the Village does not exceed 12% of the total equalized value of taxable property within the Village.
- ✓ The Village estimates that less than 35% of the territory within the District will be devoted to retail business at the end of the District's maximum expenditure period, pursuant to Wis. Stat. § 66.1105(5)(b).
- ✓ That there are no parcels to be included within the District that were annexed by the Village within the preceding three-year period.
- ✓ The Plan for the District is feasible and is in conformity with the Master Plan of the Village.

Several parcels have been identified as Blighted as defined by Wis. Stat. § 66.1105(2)(ae)1.

SECTION 5: Equalized Value Test

The following calculations demonstrate that the Village expects to be in compliance with Wis. Stat. § 66.1105(4)(gm)4.c., which requires that the equalized value of the taxable property in the proposed District, plus the value increment of all existing tax incremental districts, does not exceed 12% of the total equalized value of taxable property within the Village.

The equalized value of the increment of existing tax incremental districts within the Village, plus the base value of the proposed District, totals \$12,130,676. This value is less than the maximum of 12% Limit in equalized value that is permitted for the Village.

SECTION 6:

Statement Listing the Kind, Number and Location of All Proposed Public Works or Improvements Within the District

Project Costs are any expenditure made, estimated to be made, or monetary obligations incurred or estimated to be incurred as outlined in this Plan. Project Costs will be diminished by any income, special assessments or other revenues, including user fees or charges, other than tax increments, received or reasonably expected to be received in connection with the implementation of the Plan. If Project Costs incurred benefit territory outside the District, a proportionate share of the cost is not a Project Cost. Costs identified in this Plan are preliminary estimates made prior to design considerations and are subject to change after planning, design and construction is completed.

With all Project Costs, the costs of engineering, design, survey, inspection, materials, construction, restoring property to its original condition, apparatus necessary for public works, legal and other consultant fees, testing, environmental studies, permits, updating Village ordinances and plans, judgments or claims for damages and other expenses are included as Project Costs.

The following is a list of public works and other tax incremental financing eligible Project Costs that the Village expects to make, or may need to make, in conjunction with the implementation of the District's Plan. The map found in Section 7 of this Plan along with the Detailed List of Project Costs found in Section 8 provide additional information as to the kind, number and location of potential Project Costs.

Property, Right-of-Way and Easement Acquisition

Property Acquisition for Development

To promote and facilitate development the Village may acquire property within the District. The cost of property acquired, and any costs associated with the transaction, are eligible Project Costs. Following acquisition, other Project Costs within the categories detailed in this Section may be incurred to make the property suitable for development. Any revenue received by the Village from the sale of property acquired pursuant to the execution of this Plan will be used to reduce the total project costs of the District. If total Project Costs incurred by the Village to acquire property and make it suitable for development exceed the revenues or other consideration received from the

sale or lease of that property, the net amount shall be considered “real property assembly costs” as defined in Wis. Stat. § 66.1105(2)(f)1.c., and subject to recovery as an eligible Project Cost.

Property Acquisition for Conservancy

To promote the objectives of this Plan, the Village may acquire property within the District that it will designate for conservancy. These conservancy objectives include: preserving historic resources or sensitive natural features; protection of scenic and historic views; maintaining habitat for wildlife; maintaining adequate open space; reduction of erosion and sedimentation by preserving existing vegetation; and providing adequate areas for management of stormwater. The cost of property acquired for conservancy, and any costs associated with the transaction, are eligible Project Costs.

Acquisition of Rights-of-Way

The Village may need to acquire property to allow for installation of streets, driveways, sidewalks, utilities, stormwater management practices and other public infrastructure. Costs incurred by the Village to identify, negotiate and acquire rights-of-way are eligible Project Costs.

Acquisition of Easements

The Village may need to acquire temporary or permanent easements to allow for installation and maintenance of streets, driveways, sidewalks, utilities, stormwater management practices and other public infrastructure. Costs incurred by the Village to identify, negotiate and acquire easement rights are eligible Project Costs.

Relocation Costs

If relocation expenses are incurred in conjunction with the acquisition of property, those expenses are eligible Project Costs. These costs may include, but are not limited to: preparation of a relocation plan; allocations of staff time; legal fees; publication of notices; obtaining appraisals; and payment of relocation benefits as required by Wis. Stat. Chapter 32 and Wis. Admin. Code ADM 92.

Site Preparation Activities

Environmental Audits and Remediation

If it becomes necessary to evaluate any land or improvement within the District, any cost incurred by the Village related to environmental audits, testing, and remediation are eligible Project Costs.

Demolition

To make sites suitable for development, the Village may incur costs related to demolition and removal of structures or other land improvements, to include abandonment of wells or other existing utility services.

Site Grading

Land within the District may require grading to make it suitable for development, to provide access, and to control stormwater runoff. The Village may need to remove and dispose of excess material, or bring in fill material to provide for proper site elevations. Expenses incurred by the Village for site grading are eligible Project Costs.

Utilities

Sanitary Sewer System Improvements

To allow development to occur, the Village may need to construct, alter, rebuild or expand sanitary sewer infrastructure within the District. Eligible Project Costs include, but are not limited to, construction, alteration, rebuilding or expansion of: collection mains; manholes and cleanouts; service laterals; force mains; interceptor sewers; pumping stations; lift stations; wastewater treatment facilities; and all related appurtenances. To the extent sanitary sewer projects undertaken within the District provide direct benefit to land outside of the District, the Village will make an allocation of costs based on such benefit. Those costs corresponding to the benefit allocated to land within the District, and necessitated by the implementation of the Project Plan, are eligible Project Costs. Implementation of the Project Plan may also require that the Village construct, alter, rebuild or expand sanitary sewer infrastructure located outside of the District. That portion of the costs of sanitary sewer system projects undertaken outside the District which are necessitated by the implementation of the Project Plan are eligible Project Costs. The improvements to the wastewater treatment facilities, although not within the ½ mile radius, is an eligible project cost under Wis. Stat. § 66.1105(2)(f)1 k.

Water System Improvements

To allow development to occur, the Village may need to construct, alter, rebuild or expand water system infrastructure within the District. Eligible Project Costs include, but are not limited to, construction, alteration, rebuilding or expansion of: distribution mains; manholes and valves; hydrants; service laterals; pumping stations; wells; water treatment facilities; storage tanks and reservoirs; and all related appurtenances. To the extent water system projects undertaken within the District provide direct benefit to land outside of the District, the Village will

make an allocation of costs based on such benefit. Those costs corresponding to the benefit allocated to land within the District, and necessitated by the implementation of the Project Plan, are eligible Project Costs. Implementation of the Project Plan may also require that the Village construct, alter, rebuild or expand water system infrastructure located outside of the District. That portion of the costs of water system projects undertaken outside the District which are necessitated by the implementation of the Project Plan are eligible Project Costs.

Stormwater Management System Improvements

Development within the District will cause stormwater runoff. To manage this stormwater runoff, the Village may need to construct, alter, rebuild or expand stormwater management infrastructure within the District. Eligible Project Costs include, but are not limited to, construction, alteration, rebuilding or expansion of: stormwater collection mains; inlets, manholes and valves; service laterals; ditches; culvert pipes; box culverts; bridges; stabilization of stream and river banks; and infiltration, filtration and detention Best Management Practices (BMP's). To the extent stormwater management system projects undertaken within the District provide direct benefit to land outside of the District, the Village will make an allocation of costs based on such benefit. Those costs corresponding to the benefit allocated to land within the District, and necessitated by the implementation of the Project Plan, are eligible Project Costs. Implementation of the Project Plan may also require that the Village construct, alter, rebuild or expand stormwater management infrastructure located outside of the District. That portion of the costs of stormwater management system projects undertaken outside the District which are necessitated by the implementation of the Project Plan are eligible Project Costs.

Electric Service

To create sites suitable for development, the Village may incur costs to provide, relocate or upgrade electric services. Relocation may require abandonment and removal of existing poles or towers, installation of new poles or towers, or burying of overhead electric lines. Costs incurred by the Village to undertake this work are eligible Project Costs.

Gas Service

To create sites suitable for development, the Village may incur costs to provide, relocate or upgrade gas mains and services. Costs incurred by the Village to undertake this work are eligible Project Costs.

Communications Infrastructure

To create sites suitable for development, the Village may incur costs to provide, relocate or upgrade infrastructure required for voice and data communications, including, but not limited to telephone lines, cable lines and fiber optic cable. Costs incurred by the Village to undertake this work are eligible Project Costs.

Streets and Streetscape

Street Improvements

To allow development to occur, the Village may need to construct or reconstruct streets, highways, alleys, access drives and parking areas. Eligible Project Costs include, but are not limited to: excavation; removal or placement of fill; construction of road base; asphalt or concrete paving or repaving; installation of curb and gutter; installation of sidewalks and bicycle lanes; installation of culverts, box culverts and bridges; rail crossings and signals; utility relocation, to include burying overhead utility lines; street lighting; installation of traffic control signage and traffic signals; pavement marking; right-of-way restoration; installation of retaining walls; and installation of fences, berms, and landscaping.

Streetscaping and Landscaping

To attract development consistent with the objectives of this Plan, the Village may install amenities to enhance development sites, rights-of-way and other public spaces. These amenities include but are not limited to landscaping; lighting of streets, sidewalks, parking areas and public areas; installation of planters, benches, clocks, tree rings, trash receptacles and similar items; and installation of brick or other decorative walks, terraces and street crossings. These and any other similar amenities installed by the Village are eligible Project Costs.

Community Development

Cash Grants (Development Incentives)

The Village may enter into agreements with property owners, lessees, or developers of land located within the District for sharing costs to encourage the desired kind of improvements and assure tax base is generated sufficient to recover Project Costs. No cash grants will be provided until the Village executes a developer agreement with the recipient of the cash grant. The amount to be allocated for incentive payments is still under consideration by the Village Board and final amount will be determined by a Developer's agreement as required by state statute. Any payments of cash grants made by the Village are eligible Project Costs.

Contribution to Community Development Authority (CDA)

As provided for in Wis. Stat. § 66.1105(2)(f)1.h and Wis. Stat. § 66.1333(13), the Village may provide funds to its CDA to be used for administration, planning operations, and capital costs, including but not limited to real property acquisition, related to the purposes for which it was established in furtherance of any redevelopment or urban renewal project. Funds provided to the CDA for this purpose are eligible Project Costs.

Revolving Loan/Grant Program (Development Incentives)

To encourage private development consistent with the objectives of this Plan, the Village, through its CDA, may provide loans or grants to eligible property owners in the District. Eligible improvements will be those that are likely to improve the value of the property, enhance the visual appearance of the property and surrounding area, correct safety deficiencies, or as otherwise specified by the CDA in the program manual. Any funds returned to the CDA from the repayment of loans made are not considered revenues to the District and will not be used to offset District Project Costs. Instead, these funds may be placed into a revolving fund and will continue to be used for the program purposes stated above. Any funds provided to the CDA for purposes of implementing this program are considered eligible Project Costs.

Miscellaneous

Rail Spur

To allow for development, the Village may incur costs for installation of a rail spur or other railway improvements to serve development sites located within the District.

Projects Outside the Tax Increment District

Pursuant to Wis. Stat. § 66.1105(2)(f)1.n, the Village may undertake projects within territory located within one-half mile of the boundary of the District provided that: 1) the project area is located within the Village's corporate boundaries; and 2) the projects are approved by the Joint Review Board. The cost of projects completed outside the District pursuant to this section are eligible project costs and may include any project cost that would otherwise be eligible if undertaken within the District. The Village intends to make the following project cost expenditures outside the District:

- Utility Improvements along Main St. and Friestadt Rd. which may extend past the TID boundaries but remain within one half mile radius of the District.

Professional Service and Organizational Costs

The costs of professional services rendered, and other costs incurred, in relation to the creation, administration and termination of the District, and the undertaking of the projects contained within this Plan, are eligible Project Costs. Professional services include but are not limited to: architectural; environmental; planning; engineering; legal; audit; financial; and the costs of informing the public with respect to the creation of the District and the implementation of the Plan.

Administrative Costs

The Village may charge to the District as eligible Project Costs reasonable allocations of administrative costs, including, but not limited to, employee salaries. Costs allocated will bear a direct connection to the time spent by Village employees relating to the implementation of the Plan.

Financing Costs

Interest expense, debt issuance expenses, redemption premiums, and any other fees and costs incurred in conjunction with obtaining financing for projects undertaken under this Plan are eligible Project Costs.

SECTION 7:

Map Showing Proposed Improvements and Uses

Map Found on Following Page.

Project ID(s) not identified on the Map (Project ID #9) represent costs not directly associated with a particular area of the Tax Increment District. The projects shown here align with the projections as listed in Section 8.

SECTION 8:

Detailed List of Estimated Project Costs

The following list identifies the Project Costs that the Village currently expects to incur in implementing the District's Plan. All projects identified and related costs reflect the best estimates available as of the date of preparation of this Plan. All costs are preliminary estimates and may increase or decrease. Certain Project Costs listed may become unnecessary, and other Project Costs not currently identified may need to be made. (Section 6 details the general categories of eligible Project Costs). Changes in Project Cost totals or the types of Project Costs to be incurred will not require that this Plan be amended. This Plan is not meant to be a budget nor an appropriation of funds for specific Project Costs, but a framework within which to manage Project Costs.

Project		Phase I	Phase II	Phase III	Phase IV	Phase V	Total
ID	Name/Type	2020	2023	2023	2024	2028	(Note 1)
1	Developer Incentive (PAYGO) ²	3,282,838					3,282,838
2	Property Acquisition & Improvement	435,700	1,354,900		1,427,500	485,400	3,703,500
3	Water Mains			916,000			916,000
4	Street Lights			129,000			129,000
5	Streetscaping			662,000			662,000

Notes: 1 Project costs are estimates and are subject to modification 2 Total Amount will be finalized in Developer's Agreement. \$2.0M NPV as shown. 3 Phase I: Creation Costs							

SECTION 9: Economic Feasibility Study, Description of the Methods of Financing Estimated Project Costs and the Time When Related Costs or Monetary Obligations are to be Incurred

This Section includes a forecast of the valuation increases expected within the District, the associated tax increment collections, a summary of how Project Costs would be financed, and a projected cash flow demonstrating that the District is economically feasible.

Key Assumptions

The Project Costs the Village plans to make are expected to create \$36.2 million in incremental value by 2030. Estimated valuations and timing for construction of the Project are included in Table 1. Assuming the Village's current equalized TID Interim tax rate of \$16.89 per thousand of equalized value, and 1% appreciation, the Project would generate \$16.4 million in incremental tax revenue over the 27-year term of the District as shown in Table 2.

2	NPV calculations represent estimated amount of funds that could be borrowed (including project cost, capitalized interest and issuance costs).									

Table 2 – Tax Increment Projection Worksheet

Financing and Implementation

To finance the TID creation costs, first two years' administrative costs, and Phase I project ID 2 the Village will seek funding from the State Trust Fund Loan Program in 2020. To finance Phase II project the Village will seek funding from Taxable G.O. Notes in 2023. To finance Phase III projects the Village will seek G.O. Bonds in 2023. To finance Phase IV projects the Village will seek Taxable G.O. Bonds in 2025. To finance Phase V projects the Village will seek funding from the State Trust Fund Loan Program in 2028. The timing of the financing is subject to project execution and Increment available to repay the project costs/financing. In addition, the Village may seek other forms of financing dependent on market conditions, other available revenue sources, or changes in the Village's financial condition. **Table 3.** provides a summary of the District's financing plan.

				State Trust Fund Loan 2020	Taxable G.O. Bond 2023	G.O. Bond 2023	Taxable G.O. Bond 2025	State Trust Fund Loan 2028	Totals

Table 3 – Financing Plan

Based on the Project Cost expenditures as included within the cash flow exhibit (Table 4), the District is projected to accumulate sufficient funds by the year 2044 to pay off all Project cost liabilities and obligations. The projected closure is based on the various assumptions noted in this Plan and will vary dependent on actual Project Costs incurred and the actual amount of tax increments collected.

Notes:	Legend:
1. PAYGO assumed at 60% of NexJenn's Increment to provide \$2.0M of NPV.	Projected TID Closure
2. Assumes AA- WI BQ TX July sale plus 50 bps.	
3. Assumes previous Proposed sale in plan + 25 bps.	
4. Assumes 2023 Taxable Proposed sale in plan less 5 bps.	
5. Repay Transfers In (necessary for non-negative cumulative cash balance) plus accrued interest of 0.5% (benchmarked against current WI LGIP Investment).	
6. To Identify Annual Reporting Costs for DOR fees, Auditing, and Municipal Advisor (if utilized).	
7. Represents Village staff time.	

Table 4 - Cash Flow

SECTION 10:

Annexed Property

A tax incremental district cannot include annexed territory unless at least three years have elapsed since the annexation, or certain other requirements are met. None of the property within the proposed District boundary was annexed during the past three years.

SECTION 11:

Estimate of Property to Be Devoted to Retail Business

Pursuant to Wis. Stat. § 66.1105(5)(b), the Village estimates that less than 35% of the territory within the District will be devoted to retail business at the end of the District's maximum expenditure period.

SECTION 12:

Proposed Changes of Zoning Ordinances, Master Plan, Map, Building Codes and Village Ordinances

Zoning Ordinances

The proposed Plan is in general conformance with the Village's current zoning ordinances. Individual properties may require rezoning at the time of development.

Master (Comprehensive) Plan and Map

The proposed Plan is in general conformance with the Village's Comprehensive Plan identifying the area as appropriate for Multi-Family, Multi-Family/Highway Business District, Single Family, and Highway Business District.

Building Codes and Ordinances

Development within the District will be required to conform to State Building Codes and will be subject to the Village's permitting and inspection procedures. The proposed Plan conforms to all relevant State and local ordinances, plans, and codes. No changes to the existing regulations are proposed or needed.

SECTION 13:

Statement of the Proposed Method for the Relocation of any Persons to be Displaced

Should implementation of this Plan require relocation of individuals or business operations, relocations will be handled in compliance with Wis. Stat. Chapter 32 and Wis. Admin. Code ADM 92.

SECTION 14:

How Creation of the Tax Incremental District Promotes the Orderly Development of the Village

Creation of the District and the implementation of the projects in its Plan will promote the orderly development of the Village by creating opportunities for mixed use development, rehabilitating and conserving property, eliminating blighted areas, providing necessary public infrastructure improvements, and providing appropriate financial incentives for private development projects. Through use of tax increment financing, the Village can attract new investment that results in increased tax base. Development will occur in an orderly fashion in accordance with approved plans so that the Projects will be compatible with adjacent land uses. Development of new uses in the District will add to the tax base and will generate positive secondary impacts in the community such as increased employment opportunities and new housing opportunities.

SECTION 15:

List of Estimated Non-Project Costs

Non-project costs are public works projects which only partly benefit the District. Costs incurred that do not benefit the District may not be paid with tax increments. Examples of non-project costs are:

- A public improvement made within the District that also benefits property outside the District. That portion of the total Project Costs allocable to properties outside of the District would be a non-project cost.
- A public improvement made outside the District that only partially benefits property within the District. That portion of the total Project Costs allocable to properties outside of the District would be a non-project cost.
- Projects undertaken within the District as part of the implementation of this Project Plan, the costs of which are paid fully or in part by impact fees, grants, special assessments, or revenues other than tax increments.

No improvements to be made within the District will benefit property outside the District. Furthermore, there will be no improvements made outside the District that will only partially benefit the District.

SECTION 16:

Re: Tax Incremental District No. 2 Project Plan – Village of Thiensville -- AMENDED

Dear Mr. Roemer:

At your direction, I have reviewed the Tax Incremental District No. 2 Project Plan as amended on September 3, 2020. As you know, my review of the Plan is required by Section 66.1105(4)(f), Wis. Stats. This Section requires that a project plan for a tax incremental district include the following information:

1. A statement listing the kind, number and location of all proposed public works or improvements within the district;
2. An economic feasibility study;
3. A detailed list of estimated project costs;
4. A description of the methods of financing all estimated project costs and the time when the related costs or monetary obligations are to be incurred;
5. A map showing the existing uses and conditions of real property in the district;
6. A map showing proposed improvements and uses in the district;
7. Any proposed changes of zoning ordinances, master plan, if any, map, building codes and Village ordinances;
8. A list of estimated non-project costs;
9. A statement of the proposed method for relocation of any persons to be displaced; and
10. The plan should further indicate how creation of the tax incremental district promotes the orderly development of the Village.

HOUSEMAN & FEIND, LLP

September 21, 2020

Page 2

My review of the Tax Incremental District No. 2 Project Plan indicates that it is complete and complies the requirements of Section 66.1105(f), as identified above. Each of the itemized elements set forth above can be found in the Plan.

Should you have any further questions or concerns with regard to this matter, or this opinion, please do not hesitate to contact me.

Very truly yours,

HOUSEMAN & FEIND, LLP

Timothy S. Schoonenberg
Village Attorney

cc: Ms. Colleen Landisch-Hansen, Village Administrator

SECTION 17:
**Calculation of the Share of Projected Tax
Increments Estimated to be Paid by the Owners of
Property in the Overlying Taxing Jurisdictions**

The following projection is provided to meet the requirements of Wis. Stat. § 66.1105(4)(i)4. [Shown on next page].

Estimated portion of taxes that owners of taxable property in each taxing jurisdiction overlaying district would pay by jurisdiction.

RESOLUTION NO. 2020-13

**RESOLUTION CREATING TAX INCREMENTAL DISTRICT NO. 2,
APPROVING ITS PROJECT PLAN AND ESTABLISHING ITS BOUNDARIES
VILLAGE OF THIENSVILLE, WISCONSIN**

WHEREAS, the Village of Thiensville (the "Village") has determined that use of Tax Incremental Financing is required to promote development and redevelopment within the Village; and

WHEREAS, Tax Incremental District No. 2 (the "District") is proposed to be created by the Village as a blighted area district in accordance with the provisions of Wisconsin Statutes Section 66.1105 (the "Tax Increment Law"); and

WHEREAS, a Project Plan for the District has been prepared that includes:

- a. A statement listing of the kind, number and location of all proposed public works or improvements within the District, or to the extent provided in Wisconsin Statutes Sections 66.1105(2)(f)1.k. and 66.1105(2)(f)1.n., outside of the District;
- b. An economic feasibility study;
- c. A detailed list of estimated project costs;
- d. A description of the methods of financing all estimated project costs and the time when the related costs or monetary obligations are to be incurred;
- e. A map showing existing uses and conditions of real property in the District;
- f. A map showing proposed improvements and uses in the District;
- g. Proposed changes of zoning ordinances, master plan, map, building codes and Village ordinances;
- h. A list of estimated non-project costs;
- i. A statement of the proposed plan for relocation of any persons to be displaced;
- j. A statement indicating how the District promotes the orderly development of the Village;
- k. An opinion of the Village Attorney or of an attorney retained by the Village advising that the plan is complete and complies with Wisconsin Statutes Section 66.1105(4)(f).; and

WHEREAS, prior to its publication, a copy of the notice of public hearing was sent to owners of all property in the proposed district, to the chief executive officers of Ozaukee County, the Mequon-Thiensville School District, and the Milwaukee Area Technical College District, and any other entities having the power to levy taxes on property located within the District, in accordance with the procedures specified in the Tax Increment Law; and

WHEREAS, in accordance with the procedures specified in the Tax Increment Law, the Planning Commission, on September 1, 2020 held a public hearing concerning the project plan and boundaries and proposed creation of the District, providing interested parties a reasonable opportunity to express their views thereon; and

WHEREAS, after said public hearing, the Planning Commission designated the boundaries of the District, adopted the Project Plan, and recommended to the Village Board that it create such District and approve the Project Plan.

NOW, THEREFORE, BE IT RESOLVED by the Village Board of the Village of Thiensville that:

1. The boundaries of the District that shall be named "Tax Incremental District No. 2, Village of Thiensville", are hereby established as specified in Exhibit A of this Resolution.
2. The District is created effective as of January 1, 2020.
3. The Village Board finds and declares that:
 - (a) Not less than 50% by area of the real property within the District is a blighted area within the meaning of Wisconsin Statutes Section 66.1105(2)(ae)1.
 - (b) Based upon the finding stated in 3.a. above, the District is declared to be a blighted area district based on the identification and classification of the property included within the District.
 - (c) The improvement of such area is likely to enhance significantly the value of substantially all of the other real property in the District.
 - (d) The equalized value of the taxable property in the District plus the value increment of all other existing tax incremental districts within the Village, does not exceed 12% of the total equalized value of taxable property within the Village.
 - (e) That there are no parcels to be included within the District that were annexed by the Village within the preceding three-year period.
 - (f) The Village estimates that less than 35% of the territory within the District will be devoted to retail business at the end of the District's maximum expenditure period, pursuant to Wisconsin Statutes Section 66.1105(5)(b).
 - (g) The project costs relate directly to promoting the elimination of blight of the area consistent with the purpose for which the District is created.
4. The Project Plan for "Tax Incremental District No. 2, Village of Thiensville" (see Exhibit B) is approved, and the Village further finds the Plan is feasible and in conformity with the master plan of the Village.

BE IT FURTHER RESOLVED THAT the Village Clerk is hereby authorized and directed to apply to the Wisconsin Department of Revenue, in such form as may be prescribed, for a "Determination of Tax Incremental Base", as of January 1, 2020, pursuant to the provisions of Wisconsin Statutes Section 66.1105(5)(b).

BE IT FURTHER RESOLVED THAT pursuant to Section 66.1105(5)(f) of the Wisconsin Statutes that the Village Assessor is hereby authorized and directed to identify upon the assessment roll returned and examined under Wisconsin Statutes Section 70.45, those parcels of property which are within the District, specifying thereon the name of the said District, and the Village Clerk is hereby authorized and directed to make similar notations on the tax roll made under Section 70.65 of the Wisconsin Statutes.

Adopted this 21st day of September, 2020.

Van A. Mobley
Village Village President

Amy L. Langlois
Village Clerk

**LEGAL BOUNDARY DESCRIPTION OR MAP OF
TAX INCREMENTAL DISTRICT NO. 2
VILLAGE OF THIENSVILLE**

[INCLUDED WITHIN PROJECT PLAN]

EXHIBIT B -

PROJECT PLAN

[DISTRIBUTED SEPARATELY]

**JOINT REVIEW BOARD
RESOLUTION APPROVING THE CREATION OF
TAX INCREMENTAL DISTRICT NO. 2,
VILLAGE OF THIENSVILLE**

WHEREAS, the Village of Thiensville (the "Village") seeks to create Tax Incremental District No. 2 (the "District"); and

WHEREAS, Wisconsin Statutes Section 66.1105 requires that a Joint Review Board (the "JRB") shall convene to review the proposal; and

WHEREAS, the JRB consists of one representative chosen by the School District; one representative chosen by the Technical College District; and one representative chosen by the County, all of whom have the power to levy taxes on property within the District; and one representative chosen by the Village and one public member; and

WHEREAS, the public member and JRB's chairperson were selected by a majority vote of the other JRB members before the public hearing was held, under Wisconsin Statutes Sections 66.1105 (4)(a) and (e), and

WHEREAS, all JRB members were appointed and the first JRB meeting was held within 14 days after the notice was published under Wisconsin Statutes Sections 66.1105 (4)(a) and (e); and

WHEREAS, the JRB has reviewed the public record, planning documents, the resolution adopted by the Planning Commission approving the boundaries of the District and adopting the Project Plan, and the resolution passed by the Village Board approving the creation of the District under Wisconsin Statutes Section 66.1105 (4)(gm), and

WHEREAS, project costs benefitting the District are to be made outside of, but within a one-half mile radius of the District, pursuant to Wisconsin Statutes Section 66.1105(2)(f)1.n, as identified in the project plan; and

WHEREAS, the JRB has considered whether, and concluded that, the District meets the following criteria:

1. The development expected in the District would not occur without the use of tax increment financing and the creation of a tax incremental district.
2. The economic benefits of the District, as measured by increased employment, business and personal income and property value, are sufficient to compensate for the cost of the improvements.
3. The benefits of the proposal outweigh the anticipated tax increments to be paid by the owners of property in the overlying taxing districts.

NOW, THEREFORE, BE IT RESOLVED that the JRB approves the creation of this District.

BE IT FURTHER RESOLVED that in the judgment of the JRB, the development described in the Project Plan, the information provided by the Village, and the public record and planning documents relating to the District, would not occur without the creation of the District.

Passed and adopted this _____ day of _____, 2020.
