   Open to any citizen who wishes to speak on items not on the agenda. Please step to the podium and give your name and address for the record.

VII. ADJOURNMENT

Amy L. Langlois, Village Clerk
August 28, 2020

Please advise the Thiensville Municipal Hall, 250 Elm Street (242-3720) at least 24 hours prior to the start of this meeting if you have disabilities and desire special accommodations.

Notice is hereby given that a quorum of the Village Board and/or Village Committees may be in attendance at this meeting to present, discuss and/or gather information about a subject over which they have decision-making responsibility, although they will not take any formal action thereto at this meeting.

NOTICE OF PUBLIC HEARING
AND JOINT REVIEW BOARD MEETING
IN THE VILLAGE OF THIENSVILLE, WISCONSIN

JOINT REVIEW BOARD MEETING

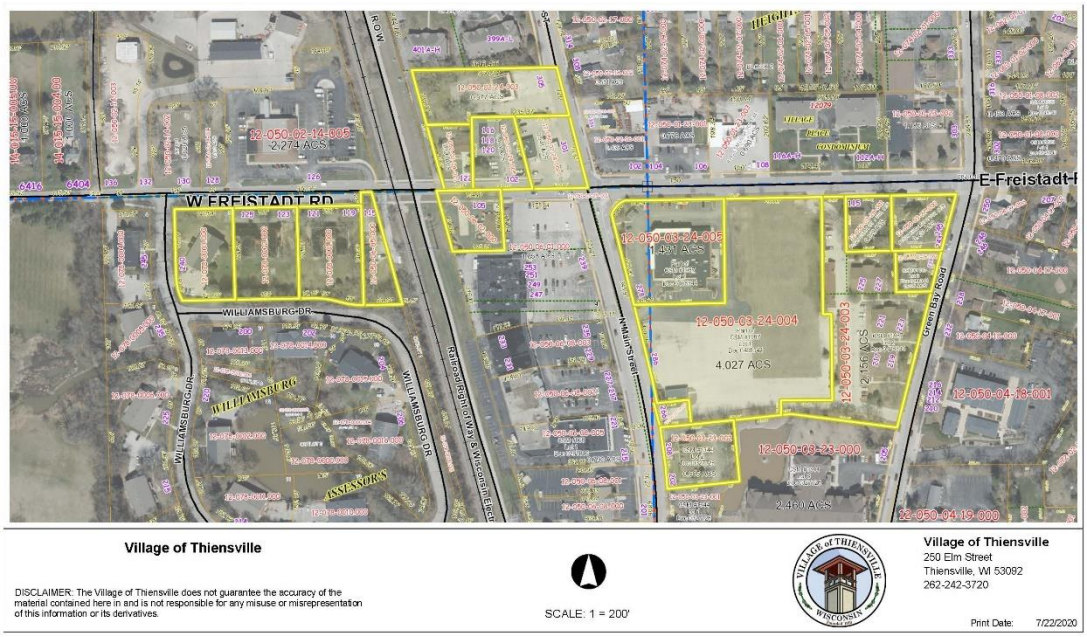
Notice is Hereby Given that the Village of Thiensville will hold an organizational Joint Review Board meeting on September 1, 2020 at 4:30 p.m. at the Thiensville Village Hall, located at 250 Elm Street and via Zoom, with details below. The purpose of this meeting is to organize a Joint Review Board for purposes of considering the proposed creation of, and proposed project plan for, Tax Incremental District No. 2 (the "District"). Due to the State of Wisconsin's Emergency Order #12 related to COVID-19, the meeting will be conducted using Zoom, an online meeting tool. (See instructions below for accessing the meeting.)

Contact the Village Administrator, Colleen Landisch-Hansen, at least 2 hours in advance
of the meeting if you wish to attend via zoom by emailing her at
clandisch@village.thiensville.wi.us
Provide your name, address, email and phone number with your request to join the meeting.

PUBLIC HEARING WITH PLAN COMMISSION

Notice is Hereby Given that the Plan Commission of the Village of Thiensville will hold a public hearing on September 1, 2020 at 6:00 p.m. at the Thiensville Village Hall, located at 250 Elm Street and via Zoom, with details below, for the purpose of providing the community a reasonable opportunity to comment upon the proposed creation of the Project Plan for the District. Due to the State of Wisconsin's Emergency Order #12 related to COVID-19, the meeting will be conducted using Zoom, an online meeting tool. (See instructions below for accessing the meeting.)

The proposed boundaries of the District would be within an area generally detailed on the map inset.



The District is expected to be a blighted area district based on the identification and classification of the property proposed to be included within the District.

Proposed projects costs include various public improvements and cash grants to owners or lessee or developers of land located within the district (development incentives) and professional and organizational services, administrative costs, and finance costs. The proposed costs include projects within the proposed boundary and within a ½ mile radius of the proposed boundary of the District.

All interested parties will be given a reasonable opportunity to express their views on the proposed creation of the District, the proposed boundaries of the District, and the proposed Project Plan thereof. A copy of the Project Plan, including a description of the proposed boundaries, will be available for viewing in the offices of the Village Clerk at the Thiensville Village Hall, located at 250 Elm Street, during normal business hours, 8:00 a.m. to 4:30 p.m. and will be provided upon request.

Such hearing shall be public and citizens and interested parties shall then be heard. This hearing may be adjourned from time to time.

The Zoom link to join the Public Hearing at 6:00 p.m. is:
https://us02web.zoom.us/j/83323249585?pwd=Lzh5YVdBYTYydlpNZm54SVhiL2lYdz09

Dial by your location
+1 929 205 6099 US
+1 301 715 8592 US
+1 312 626 6799 US

You may share your comments during the meeting or feel free to email comments to: clandisch@village.thiensville.wi.us or mail them to 250 Elm Street. Communication must be received by 2:30 p.m., September 1, 2020. Provide your name, address, email and phone number with your request to be heard. All public participants will have their microphone muted. If, during the public hearing, anyone wishes to talk they should request to do so through the chat feature or by using the "hand" to wave at the meeting organizer. The administrator of the meeting will unmute you at the appropriate time and ask you to make your comments.

I. CALL TO ORDER

Chairman Mobley called the meeting to order at 6:00 PM.

II. ROLL CALL

Chairman:	Van Mobley	
Commissioners:	Mike Dyer	Sarah Hughes
	Rick Gattoni	Ken Kucharski
	Carol Gengler	Dan Luedtke
Planner:	Jon Censky	
Director of Community Services/Public Works:	Andy LaFond	

III. BUSINESS

A. Approval of Minutes
1. July 7, 2020

MOTION by Commissioner Luedtke, **SECONDED** by Commissioner Kucharski to approve the July 7, 2020 Minutes. **MOTION CARRIED UNANIMOUSLY.**

B. Update from Mark Hammond, MSP Real Estate, Inc., 200 Green Bay Road

Mark Hammond, MSP Real Estate, Inc., shared that interest in the property at 200 Green Bay Road has been very slow. There had been interest several months ago by an individual to utilize the property as a warehouse/storage. Mr. Hammond was not aware if this use is permitted within the property's zoning district. Director LaFond shared that there was one offer made, however, Mr. Hammond stated that this was from a very low probability buyer. Mr. Hammond also mentioned that a church group had looked at the property 3-4 months ago, however, determined quickly that the building would not work for their needs.

Director LaFond shared that a property maintenance letter had been sent addressing grass mowing and dead ash trees. Mr. Hammond was unaware of this letter. There was a gap in grass mowing which has been taken care of. Mr. Hammond will follow up with their property management company.

Commissioner Gattoni inquired if there were any thoughts regarding demolition of the building. Mr. Hammond shared that demolition is still on the table for anyone looking to redevelop the site. MSP does not want to demo the building in case there is someone interested in repurposing the building.

Chairman Mobley thanked Mr. Hammond.

C. Review and approval of Shed, Andrew Wagner, 432 Madero Drive

Planner Censky shared that the requested shed for Andrew Wagner at 432 Madero Drive is fully compliant in terms of dimensions and location and inquired of the color scheme. Mr. Wagner shared that the shed will be a pre-fab unit from Lifetime and is gray with a darker gray roof.

MOTION by Commissioner Kucharski, **SECONDED** by Commissioner Luedtke to approve Shed, Andrew Wagner, 432 Madero Drive. **MOTION CARRIED UNANIMOUSLY.**

D. Review and approval of Shed, James Freel, 522 Rosedale Drive

James, Freel, 522 Rosedale Drive, presented plans for a 10' x 14' shed.

Planner Censky stated that the shed is code compliant in regards to location and size, however, inquired about the height stating that it cannot exceed 12'. Mr. Freel confirmed that the shed is not higher than 12'. The color will match the beige color of the house with a brown roof to match the house as well.

MOTION by Commissioner Dyer, **SECONDED** by Commissioner Luedtke to approve Shed, James Freel, 522 Rosedale Drive. **MOTION CARRIED UNANIMOUSLY.**

E. Review and approval of Detached Garage, Andrew and Molly Ticcioni, 105 Kieker Road

Andrew Ticcioni, 105 Kieker Road shared that he and his family have been in their home for eight years which does not have a garage on the property and presented plans for a two-car detached garage. The garage measures 25' wide x 25' deep with room in the back for a permanent staircase and storage in the attic. The foundation will be cement and will be built into a hill.

Planner Censky indicated that these plans are fully code compliant.

MOTION by Commissioner Gattoni, **SECONDED** by Commissioner Kucharski to approve Detached Garage, Andrew and Molly Ticcioni, 105 Kieker Road. **MOTION CARRIED UNANIMOUSLY.**

All applicants or their contractors must be present for any approvals.

IV. STAFF REPORT

Director LaFond shared that a playset was staff approved for Melissa Blahnik at 525 Park Crest Drive on July 15, 2020.

V. BUSINESS FROM THE FLOOR

Open to any citizen who wishes to speak on items not on the agenda. Please step to the podium and give your name and address for the record.

VI. ADJOURNMENT

MOTION by Commissioner Gattoni, **SECONDED** by Commissioner Luedtke to adjourn the meeting at 6:13 PM. **MOTION CARRIED UNANIMOUSLY.**

SECTION 1:
Executive Summary

Description of District
Tax Incremental District ("TID") No. 2 ("District") is a proposed Blighted Area District comprising approximately 15 acres located primarily at the intersection of East Friestadt Road and North Main Street. The District will be created to pay the costs of land acquisition/remediation, infrastructure, and developer incentives ("Project") needed to be developed by NexJenn Real Estate LLC ("Developer"). In addition to the incremental property value that will be created, the Village expects the Project will result in additional retailers, additional multifamily, and area redevelopment.

Authority
The Village is creating the District under the provisions of Wis. Stat. § 66.1105.

Estimated Total Project Cost Expenditures
The Village anticipates making total expenditures of approximately $9.9 Million ("Project Costs") to undertake the projects listed in this Project Plan ("Plan"). Project Costs includes Property Acquisition for Development, Environmental Audits and Remediation, Demolition, Utility System improvements, Street Improvements, Cash Grants (Development Incentives), Professional Service and Organizational Costs, Administrative Costs, and Financing Costs. These project costs and details are further explained in Sections 6 and 7.

Incremental Valuation
The Village projects that new land and improvements value of approximately $20 million will result from the Project. Over and above the Project the Village hopes to redevelop the surrounding area and create around $15 million of value above existing value. Creation of this additional value will be made possible by the Project Costs made within the District. A table detailing assumption's as to the development timing and associated values is included in the Economic Feasibility Study located within this Plan.

Expected Termination of District
Based on the Economic Feasibility Study located within Section 9 of this Plan, the Village anticipates that the District will generate sufficient tax increment to pay all Project Costs within 25 of its allowable 27 years.

Summary of Findings
As required by Wis. Stat. § 66.1105, and as documented in this Plan and the exhibits contained and referenced herein, the following findings are made:

- ✓ That "but for" the creation of this District, the development projected to occur as detailed in this Plan: 1) would not occur; or 2) would not occur in the manner, at the values, or within the timeframe desired by the Village. In reaching this determination, the Village has considered:

    - A review of the Project's sources and uses, and cash flow proforma. The Project's projected return on investment over 10 years without TIF assistance is 6.7%. The Developer has requested that the Village provide incentive payments on a pay as you go basis with an estimated present value of $2.0 million. (Projected future value payments of $3.28 million). Provision of the requested assistance would improve the Project's return on investment to 11.7%. Projects of this type typically need to provide a return in the range of 12% to 15% to attract the necessary investment capital. Based on Ehlers review, provision of pay as you go incentives in the amount requested is necessary to provide an acceptable return on investment and indicates that "but for" the incentives, the project would not likely proceed.
    - The substantial investment needed to provide the public infrastructure necessary to allow for development within the District. Absent the use of tax incremental financing, the Village is unable to fully fund this program of infrastructure improvements.

- ✓ The economic benefits of the District, as measured by increased employment, business and personal income, and property value, are sufficient to compensate for the cost of the improvements. In making this determination, the Village has considered the following information:

    - That the Developer is likely to purchase goods and services from local suppliers in construction of the Project, and induced effects of employee households spending locally for goods and services from retailers, restaurants and service companies.

- ✓ The benefits of the proposal outweigh the anticipated tax increments to be paid by the owners of property in the overlying taxing jurisdictions. As required by Wis. Stat. § 66.1105(4)(i)4., a calculation of the share of projected tax increments estimated to be paid by the owners of property in the overlying taxing jurisdictions has been prepared and can be found in this Plan. However, because the Project would not occur without the use of tax incremental financing, these tax increments would not be paid but for creation of the District. Accordingly, the Village finds that the benefits

expected to be realized as set forth in this Plan outweigh the value of the tax increments to be invested in the Project.

- ✓ Not less than 50% by area of the real property within the District is a blighted area as defined by Wis. Stat. § 66.1105(2)(ae)1.
- ✓ Based on the foregoing finding, the District is designated as a blighted area district.
- ✓ The Project Costs relate directly to the elimination of blight in the District, consistent with the purpose for which the District is created.
- ✓ Improvements to be made in the District are likely to significantly enhance the value of substantially all of the other real property in the District.
- ✓ The equalized value of taxable property in the District, plus the incremental value of all existing tax incremental districts within the Village does not exceed 12% of the total equalized value of taxable property within the Village.
- ✓ The Village estimates that less than 35% of the territory within the District will be devoted to retail business at the end of the District's maximum expenditure period, pursuant to Wis. Stat. § 66.1105(5)(b).
- ✓ That there are no parcels to be included within the District that were annexed by the Village within the preceding three-year period.
- ✓ The Plan for the District is feasible and is in conformity with the Master Plan of the Village.

Several parcels have been identified as Blighted as defined by Wis. Stat. § 66.1105(2)(ae)1.

SECTION 5:
Equalized Value Test

The following calculations demonstrate that the Village expects to be in compliance with Wis. Stat. § 66.1105(4)(gm)4.c., which requires that the equalized value of the taxable property in the proposed District, plus the value increment of all existing tax incremental districts, does not exceed 12% of the total equalized value of taxable property within the Village.

The equalized value of the increment of existing tax incremental districts within the Village, plus the base value of the proposed District, totals $0. This value is less than the maximum of $12% Limit in equalized value that is permitted for the Village.

SECTION 6:
Statement Listing the Kind, Number and Location of All Proposed Public Works or Improvements Within the District

Project Costs are any expenditure made, estimated to be made, or monetary obligations incurred or estimated to be incurred as outlined in this Plan. Project Costs will be diminished by any income, special assessments or other revenues, including user fees or charges, other than tax increments, received or reasonably expected to be received in connection with the implementation of the Plan. If Project Costs incurred benefit territory outside the District, a proportionate share of the cost is not a Project Cost. Costs identified in this Plan are preliminary estimates made prior to design considerations and are subject to change after planning, design and construction is completed.

With all Project Costs, the costs of engineering, design, survey, inspection, materials, construction, restoring property to its original condition, apparatus necessary for public works, legal and other consultant fees, testing, environmental studies, permits, updating Village ordinances and plans, judgments or claims for damages and other expenses are included as Project Costs.

The following is a list of public works and other tax incremental financing eligible Project Costs that the Village expects to make, or may need to make, in conjunction with the implementation of the District's Plan. The map found in Section 7 of this Plan along with the Detailed List of Project Costs found in Section 8 provide additional information as to the kind, number and location of potential Project Costs.

Property, Right-of-Way and Easement Acquisition

Property Acquisition for Development

To promote and facilitate development the Village may acquire property within the District. The cost of property acquired, and any costs associated with the transaction, are eligible Project Costs. Following acquisition, other Project Costs within the categories detailed in this Section may be incurred to make the property suitable for development. Any revenue received by the Village from the sale of property acquired pursuant to the execution of this Plan will be used to reduce the total project costs of the District. If total Project Costs incurred by the Village to acquire property and make it suitable for development exceed the revenues or other consideration received from the

sale or lease of that property, the net amount shall be considered "real property assembly costs" as defined in Wis. Stat. § 66.1105(2)(f)1.c., and subject to recovery as an eligible Project Cost.

Property Acquisition for Conservancy

To promote the objectives of this Plan, the Village may acquire property within the District that it will designate for conservancy. These conservancy objectives include: preserving historic resources or sensitive natural features; protection of scenic and historic views; maintaining habitat for wildlife; maintaining adequate open space; reduction of erosion and sedimentation by preserving existing vegetation; and providing adequate areas for management of stormwater. The cost of property acquired for conservancy, and any costs associated with the transaction, are eligible Project Costs.

Acquisition of Rights-of-Way

The Village may need to acquire property to allow for installation of streets, driveways, sidewalks, utilities, stormwater management practices and other public infrastructure. Costs incurred by the Village to identify, negotiate and acquire rights-of-way are eligible Project Costs.

Acquisition of Easements

The Village may need to acquire temporary or permanent easements to allow for installation and maintenance of streets, driveways, sidewalks, utilities, stormwater management practices and other public infrastructure. Costs incurred by the Village to identify, negotiate and acquire easement rights are eligible Project Costs.

Relocation Costs

If relocation expenses are incurred in conjunction with the acquisition of property, those expenses are eligible Project Costs. These costs may include, but are not limited to: preparation of a relocation plan; allocations of staff time; legal fees; publication of notices; obtaining appraisals; and payment of relocation benefits as required by Wis. Stat. Chapter 32 and Wis. Admin. Code ADM 92.

Site Preparation Activities

Environmental Audits and Remediation

If it becomes necessary to evaluate any land or improvement within the District, any cost incurred by the Village related to environmental audits, testing, and remediation are eligible Project Costs.

Demolition

To make sites suitable for development, the Village may incur costs related to demolition and removal of structures or other land improvements, to include abandonment of wells or other existing utility services.

Site Grading

Land within the District may require grading to make it suitable for development, to provide access, and to control stormwater runoff. The Village may need to remove and dispose of excess material, or bring in fill material to provide for proper site elevations. Expenses incurred by the Village for site grading are eligible Project Costs.

Utilities

Sanitary Sewer System Improvements

To allow development to occur, the Village may need to construct, alter, rebuild or expand sanitary sewer infrastructure within the District. Eligible Project Costs include, but are not limited to, construction, alteration, rebuilding or expansion of: collection mains; manholes and cleanouts; service laterals; force mains; interceptor sewers; pumping stations; lift stations; wastewater treatment facilities; and all related appurtenances. To the extent sanitary sewer projects undertaken within the District provide direct benefit to land outside of the District, the Village will make an allocation of costs based on such benefit. Those costs corresponding to the benefit allocated to land within the District, and necessitated by the implementation of the Project Plan, are eligible Project Costs. Implementation of the Project Plan may also require that the Village construct, alter, rebuild or expand sanitary sewer infrastructure located outside of the District. That portion of the costs of sanitary sewer system projects undertaken outside the District which are necessitated by the implementation of the Project Plan are eligible Project Costs. The improvements to the wastewater treatment facilities, although not within the ½ mile radius, is an eligible project cost under Wis. Stat. § 66.1105(2)(f)1 k.

Water System Improvements

To allow development to occur, the Village may need to construct, alter, rebuild or expand water system infrastructure within the District. Eligible Project Costs include, but are not limited to, construction, alteration, rebuilding or expansion of: distribution mains; manholes and valves; hydrants; service laterals; pumping stations; wells; water treatment facilities; storage tanks and reservoirs; and all related appurtenances. To the extent water system projects undertaken within the District provide direct benefit to land outside of the District, the Village will

make an allocation of costs based on such benefit. Those costs corresponding to the benefit allocated to land within the District, and necessitated by the implementation of the Project Plan, are eligible Project Costs. Implementation of the Project Plan may also require that the Village construct, alter, rebuild or expand water system infrastructure located outside of the District. That portion of the costs of water system projects undertaken outside the District which are necessitated by the implementation of the Project Plan are eligible Project Costs.

Stormwater Management System Improvements

Development within the District will cause stormwater runoff. To manage this stormwater runoff, the Village may need to construct, alter, rebuild or expand stormwater management infrastructure within the District. Eligible Project Costs include, but are not limited to, construction, alteration, rebuilding or expansion of: stormwater collection mains; inlets, manholes and valves; service laterals; ditches; culvert pipes; box culverts; bridges; stabilization of stream and river banks; and infiltration, filtration and detention Best Management Practices (BMP's). To the extent stormwater management system projects undertaken within the District provide direct benefit to land outside of the District, the Village will make an allocation of costs based on such benefit. Those costs corresponding to the benefit allocated to land within the District, and necessitated by the implementation of the Project Plan, are eligible Project Costs. Implementation of the Project Plan may also require that the Village construct, alter, rebuild or expand stormwater management infrastructure located outside of the District. That portion of the costs of stormwater management system projects undertaken outside the District which are necessitated by the implementation of the Project Plan are eligible Project Costs.

Electric Service

To create sites suitable for development, the Village may incur costs to provide, relocate or upgrade electric services. Relocation may require abandonment and removal of existing poles or towers, installation of new poles or towers, or burying of overhead electric lines. Costs incurred by the Village to undertake this work are eligible Project Costs.

Gas Service

To create sites suitable for development, the Village may incur costs to provide, relocate or upgrade gas mains and services. Costs incurred by the Village to undertake this work are eligible Project Costs.

Communications Infrastructure

To create sites suitable for development, the Village may incur costs to provide, relocate or upgrade infrastructure required for voice and data communications, including, but not limited to telephone lines, cable lines and fiber optic cable. Costs incurred by the Village to undertake this work are eligible Project Costs.

Streets and Streetscape

Street Improvements

To allow development to occur, the Village may need to construct or reconstruct streets, highways, alleys, access drives and parking areas. Eligible Project Costs include, but are not limited to: excavation; removal or placement of fill; construction of road base; asphalt or concrete paving or repaving; installation of curb and gutter; installation of sidewalks and bicycle lanes; installation of culverts, box culverts and bridges; rail crossings and signals; utility relocation, to include burying overhead utility lines; street lighting; installation of traffic control signage and traffic signals; pavement marking; right-of-way restoration; installation of retaining walls; and installation of fences, berms, and landscaping.

Streetscaping and Landscaping

To attract development consistent with the objectives of this Plan, the Village may install amenities to enhance development sites, rights-of-way and other public spaces. These amenities include but are not limited to landscaping; lighting of streets, sidewalks, parking areas and public areas; installation of planters, benches, clocks, tree rings, trash receptacles and similar items; and installation of brick or other decorative walks, terraces and street crossings. These and any other similar amenities installed by the Village are eligible Project Costs.

Community Development

Cash Grants (Development Incentives)

The Village may enter into agreements with property owners, lessees, or developers of land located within the District for sharing costs to encourage the desired kind of improvements and assure tax base is generated sufficient to recover Project Costs. No cash grants will be provided until the Village executes a developer agreement with the recipient of the cash grant. Any payments of cash grants made by the Village are eligible Project Costs.

Contribution to Community Development Authority (CDA)

As provided for in Wis. Stat. § 66.1105(2)(f)1.h and Wis. Stat. § 66.1333(13), the Village may provide funds to its CDA to be used for administration, planning

operations, and capital costs, including but not limited to real property acquisition, related to the purposes for which it was established in furtherance of any redevelopment or urban renewal project. Funds provided to the CDA for this purpose are eligible Project Costs.

Revolving Loan/Grant Program (Development Incentives)

To encourage private development consistent with the objectives of this Plan, the Village, through its CDA, may provide loans or grants to eligible property owners in the District. Eligible improvements will be those that are likely to improve the value of the property, enhance the visual appearance of the property and surrounding area, correct safety deficiencies, or as otherwise specified by the CDA in the program manual. Any funds returned to the CDA from the repayment of loans made are not considered revenues to the District and will not be used to offset District Project Costs. Instead, these funds may be placed into a revolving fund and will continue to be used for the program purposes stated above. Any funds provided to the CDA for purposes of implementing this program are considered eligible Project Costs.

Miscellaneous

Rail Spur

To allow for development, the Village may incur costs for installation of a rail spur or other railway improvements to serve development sites located within the District.

Projects Outside the Tax Increment District

Pursuant to Wis. Stat. § 66.1105(2)(f)1.n, the Village may undertake projects within territory located within one-half mile of the boundary of the District provided that: 1) the project area is located within the Village's corporate boundaries; and 2) the projects are approved by the Joint Review Board. The cost of projects completed outside the District pursuant to this section are eligible project costs and may include any project cost that would otherwise be eligible if undertaken within the District. The Village intends to make the following project cost expenditures outside the District:

- Utility Improvements along Main St. and Friestadt Rd. which may extend past the TID boundaries but remain within one half mile radius of the District.

Professional Service and Organizational Costs

The costs of professional services rendered, and other costs incurred, in relation to the creation, administration and termination of the District, and the undertaking of the projects contained within this Plan, are eligible Project Costs. Professional services include but are not limited to: architectural; environmental; planning; engineering; legal; audit; financial; and the costs of informing the public with respect to the creation of the District and the implementation of the Plan.

Administrative Costs

The Village may charge to the District as eligible Project Costs reasonable allocations of administrative costs, including, but not limited to, employee salaries. Costs allocated will bear a direct connection to the time spent by Village employees relating to the implementation of the Plan.

Financing Costs

Interest expense, debt issuance expenses, redemption premiums, and any other fees and costs incurred in conjunction with obtaining financing for projects undertaken under this Plan are eligible Project Costs.

SECTION 8:
Detailed List of Estimated Project Costs

The following list identifies the Project Costs that the Village currently expects to incur in implementing the District's Plan. All projects identified and related costs reflect the best estimates available as of the date of preparation of this Plan. All costs are preliminary estimates and may increase or decrease. Certain Project Costs listed may become unnecessary, and other Project Costs not currently identified may need to be made. (Section 6 details the general categories of eligible Project Costs). Changes in Project Cost totals or the types of Project Costs to be incurred will not require that this Plan be amended. This Plan is not meant to be a budget nor an appropriation of funds for specific Project Costs, but a framework within which to manage Project Costs.

Project ID	Name/Type	Phase I 2020	Phase II 2023	Phase III 2023	Phase IV 2024	Phase V 2028	Total (Note 1)
1	Developer Incentive (PAYGO)[2]	3,282,838					3,282,838
2	Property Acquisition & Improvement	435,700	1,354,900		1,427,500	485,400	3,703,500
3	Water Mains			916,000			916,000
4	Street Lights			129,000			129,000
5	Streetscaping			662,000			662,000
6	Bury overhead utilities			535,000			535,000
7	Williamsburg Dr. Sewer			280,000			280,000
8	Friestadt Rd. Bike Path			395,000			395,000
9	Professional Services (Non-recurring)[3]	15,000					15,000

Notes:

1 Project costs are estimates and are subject to modification

2 Total Amount will be finalized in Developer's Agreement. $2.0M NPV as shown.

3 Phase I: Creation Costs

SECTION 9:
Economic Feasibility Study, Description of the Methods of Financing Estimated Project Costs and the Time When Related Costs or Monetary Obligations are to be Incurred

This Section includes a forecast of the valuation increases expected within the District, the associated tax increment collections, a summary of how Project Costs would be financed, and a projected cash flow demonstrating that the District is economically feasible.

Key Assumptions

The Project Costs the Village plans to make are expected to create $36.2 million in incremental value by 2030. Estimated valuations and timing for construction of the Project are included in **Table 1.** Assuming the Village's current equalized TID Interim tax rate of $16.89 per thousand of equalized value, and 1% appreciation, the Project would generate $16.4 million in incremental tax revenue over the 27-year term of the District as shown in Table 2.

Notes:

1 Actual results will vary depending on development, inflation of overall tax rates.

2 NPV calculations represent estimated amount of funds that could be borrowed (including project cost, capitalized interest and issuance costs).

Table 2 – Tax Increment Projection Worksheet

Financing and Implementation

To finance the TID creation costs, first two years' administrative costs, and Phase I project ID 2 the Village will seek funding from the State Trust Fund Loan Program in 2020. To finance Phase II project the Village will seek funding from Taxable G.O. Notes in 2023. To finance Phase III projects the Village will seek G.O. Bonds in 2023. To finance Phase IV projects the Village will seek Taxable G.O. Bonds in 2025. To finance Phase V projects the Village will seek funding from the State Trust Fund Loan Program in 2028. The timing of the financing is subject to project execution and Increment available to repay the project costs/financing. In addition, the Village may seek other forms of financing dependent on market conditions, other available revenue sources, or changes in the Village's financial condition. **Table 3.** provides a summary of the District's financing plan.

Table 3 – Financing Plan

Based on the Project Cost expenditures as included within the cash flow exhibit (Table 4), the District is projected to accumulate sufficient funds by the year 2044 to pay off all Project cost liabilities and obligations. The projected closure is based on the various assumptions noted in this Plan and will vary dependent on actual Project Costs incurred and the actual amount of tax increments collected.

Year	Projected Revenues					Expenditures																		Balances

Notes:

1. PAYGO assumed at 60% of NexJenn's Increment to provide $2.0M of NPV.
2. Assumes AA- WI BQ TX July sale plus 50 bps.
3. Assumes previous Proposed sale in plan + 25 bps.
4. Assumes 2023 Taxable Proposed sale in plan less 5 bps.
5. Repay Transfers In (necessary for non-negative cumalative cash balance) plus accrued interest of 0.5% (benchmarked against current WI LGIP Investment).
6. To Identify Annual Reporting Costs for DOR fees, Audtiing, and Municipal Advisor (if utilized).
7. Represents Village staff time.

Legend:

Projected TID Closure

Table 4 – Cash Flow

SECTION 10:
Annexed Property

A tax incremental district cannot include annexed territory unless at least three years have elapsed since the annexation, or certain other requirements are met. None of the property within the proposed District boundary was annexed during the past three years.

SECTION 11:
Estimate of Property to Be Devoted to Retail Business

Pursuant to Wis. Stat. § 66.1105(5)(b), the Village estimates that less than 35% of the territory within the District will be devoted to retail business at the end of the District's maximum expenditure period.

SECTION 12:
Proposed Changes of Zoning Ordinances, Master Plan, Map, Building Codes and Village Ordinances

Zoning Ordinances

The proposed Plan is in general conformance with the Village's current zoning ordinances. Individual properties may require rezoning at the time of development.

Master (Comprehensive) Plan and Map

The proposed Plan is in general conformance with the Village's Comprehensive Plan identifying the area as appropriate for Multi-Family, Multi-Family/Highway Business District, Single Family, and Highway Business District.

Building Codes and Ordinances

Development within the District will be required to conform to State Building Codes and will be subject to the Village's permitting and inspection procedures. The proposed Plan conforms to all relevant State and local ordinances, plans, and codes. No changes to the existing regulations are proposed or needed.

SECTION 13:
Statement of the Proposed Method for the Relocation of any Persons to be Displaced

Should implementation of this Plan require relocation of individuals or business operations, relocations will be handled in compliance with Wis. Stat. Chapter 32 and Wis. Admin. Code ADM 92.

SECTION 14:
How Creation of the Tax Incremental District Promotes the Orderly Development of the Village

Creation of the District and the implementation of the projects in its Plan will promote the orderly development of the Village by creating opportunities for mixed use development, rehabilitating and conserving property, eliminating blighted areas, providing necessary public infrastructure improvements, and providing appropriate financial incentives for private development projects. Through use of tax increment financing, the Village can attract new investment that results in increased tax base. Development will occur in an orderly fashion in accordance with approved plans so that the Projects will be compatible with adjacent land uses. Development of new uses in the District will add to the tax base and will generate positive secondary impacts in the community such as increased employment opportunities and new housing opportunities.

SECTION 15:
List of Estimated Non-Project Costs

Non-project costs are public works projects which only partly benefit the District. Costs incurred that do not benefit the District may not be paid with tax increments. Examples of non-project costs are:

- A public improvement made within the District that also benefits property outside the District. That portion of the total Project Costs allocable to properties outside of the District would be a non-project cost.
- A public improvement made outside the District that only partially benefits property within the District. That portion of the total Project Costs allocable to properties outside of the District would be a non-project cost.
- Projects undertaken within the District as part of the implementation of this Project Plan, the costs of which are paid fully or in part by impact fees, grants, special assessments, or revenues other than tax increments.

No improvements to be made within the District will benefit property outside the District. Furthermore, there will be no improvements made outside the District that will only partially benefit the District.

SECTION 16:
Legal Opinion Advising Whether the Plan is Complete and Complies with Wis. Stat. § 66.1105(4)(f)

Re: Tax Incremental District No. 2 Project Plan – Village of Thiensville

Dear Mr. Roemer:

At your direction, I have reviewed the Tax Incremental District No. 2 Project Plan. As you know, my review of the Plan is required by Section 66.1105(4)(f), Wis. Stats. This Section requires that a project plan for a tax incremental district include the following information:

1. A statement listing the kind, number and location of all proposed public works or improvements within the district;

2. An economic feasibility study;

3. A detailed list of estimated project costs;

4. A description of the methods of financing all estimated project costs and the time when the related costs or monetary obligations are to be incurred;

5. A map showing the existing uses and conditions of real property in the district;

6. A map showing proposed improvements and uses in the district;

7. Any proposed changes of zoning ordinances, master plan, if any, map, building codes and Village ordinances;

8. A list of estimated non-project costs;

9. A statement of the proposed method for relocation of any persons to be displaced; and

10. The plan should further indicate how creation of the tax incremental district promotes the orderly development of the Village.

My review of the Tax Incremental District No. 2 Project Plan indicates that it is complete and complies the requirements of Section 66.1105(f), as identified above. Each of the itemized elements set forth above can be found in the Plan.

Should you have any further questions or concerns with regard to this matter, or this opinion, please do not hesitate to contact me.

Very truly yours,

HOUSEMAN & FEIND, LLP

Timothy S. Schoonenberg
Village Attorney

cc: Ms. Colleen Landisch-Hansen, Village Administrator

SECTION 17:
Calculation of the Share of Projected Tax Increments Estimated to be Paid by the Owners of Property in the Overlying Taxing Jurisdictions

The following projection is provided to meet the requirements of Wis. Stat. § 66.1105(4)(i)4. [Shown on next page].

Estimated portion of taxes that owners of taxable property in each taxing jurisdiction overlaying district would pay by jurisdiction.

RESOLUTION DESIGNATING PROPOSED BOUNDARIES AND APPROVING A PROJECT PLAN FOR TAX INCREMENTAL DISTRICT NO. 2, VILLAGE OF THIENSVILLE, WISCONSIN

WHEREAS, the Village of Thiensville (the “Village”) has determined that use of Tax Incremental Financing is required to promote development and redevelopment within the Village; and

WHEREAS, Tax Incremental District No. 2 (the “District”) is proposed to be created by the Village as a blighted area district in accordance with the provisions of Wisconsin Statutes Section 66.1105 (the "Tax Increment Law"); and

WHEREAS, a Project Plan for the District has been prepared that includes:

a. A statement listing of the kind, number and location of all proposed public works or improvements within the District, or to the extent provided in Wisconsin Statutes Sections 66.1105(2)(f)1.k. and 66.1105(2)(f)1.n., outside of the District;
b. An economic feasibility study;
c. A detailed list of estimated project costs;
d. A description of the methods of financing all estimated project costs and the time when the related costs or monetary obligations are to be incurred;
e. A map showing existing uses and conditions of real property in the District;
f. A map showing proposed improvements and uses in the District;
g. Proposed changes of zoning ordinances, master plan, map, building codes and Village ordinances;
h. A list of estimated non-project costs;
i. A statement of the proposed plan for relocation of any persons to be displaced;
j. A statement indicating how the District promotes the orderly development of the Village;
k. An opinion of the Village Attorney or of an attorney retained by the Village advising that the plan is complete and complies with Wisconsin Statutes Section 66.1105(4)(f).

WHEREAS, prior to its publication, a copy of the notice of public hearing was sent to owners of all property in the proposed District, to the chief executive officers of Ozaukee County, the Mequon-Thiensville School District, and the Milwaukee Area Technical College District, and any other entities having the power to levy taxes on property located within the District, in accordance with the procedures specified in the Tax Increment Law; and

WHEREAS, in accordance with the procedures specified in the Tax Increment Law, the Planning Commission, on September 1, 2020 held a public hearing concerning the project plan and boundaries and proposed creation of the District, providing interested parties a reasonable opportunity to express their views thereon.

NOW, THEREFORE, BE IT RESOLVED by the Planning Commission of the Village of Thiensville that:

1. It recommends to the Village Board that Tax Incremental District No. 2 be created with boundaries as designated in Exhibit A of this Resolution.

2. It approves and adopts the Project Plan for the District, attached as Exhibit B, and recommends its approval to the Village Board.

3. Creation of the District promotes orderly development in the Village.

Adopted this 1st day of September, 2020.
